RE: Edmund Andrew Hintz

To Whom it May Concern:

It is with great pleasure that I introduce and recommend Edmund Hintz as a musician and/or prospective employee.

I have watched Ed grow musically and personally over four years at El Camino College where I am an applied faculty member. Ed worked very hard vocally, displaying continued discipline and setting and achieving new goals.

Ed worked in the music library as a library assistant. He is particularly skillful at the computer and was great help to the staff and students. He is extremely bright and could develop a very successful career in computer systems.

As the director of the South Bay Conservatory in Los Angeles, I have the opportunity of observing and working with students having a variety of capabilities. Without questions, Edmund stands out as extremely bright and hard working. He will prove to be an asset to any individual or company who chooses to offer him an opportunity.

Most Sincerely,

Patricia Maki
Director
